DIRECTIONS FOR COMPLETING CASE STUDY

Dear Teams,

- 1) As a number of the winning Case Studies will be printed in the IPI Journal (https://www.ipiindia.org/journal_listing), we will award a small number of points for completing the Case Study by following these rules. Every team should receive the maximum points:
 - a. Please use Calibri font 10 for your answers.
 - b. Add your team's relevant information in the Header, replacing the placeholder name, location, team name, school.
 - c. Replace all "Lorem ipsum" passages throughout with your answers. These passages are placeholders for your answers.
 - d. Erase the (XXX words) and all other (Red Font directions) as these directions should not be part of your Case Study.
 - e. Replace the RED font with what is requested to add in its place, where applicable
 - f. Provide two PDF copies of your Case Study – one copy for the Reviewers that includes your case study as well as the For Judges Only and these Directions; and one copy with just your Case Study itself, ending after Part III as this would be the version that would be included in the IPI Journal.
 - g. Please adhere to the word limits.
 - h. Please keep this Case Study "template" format.
 - i. Complete the footer information with your information about your team and initiative name
- 2) Interviewing the stakeholders: As you view the Case Study Parts, it is designed to make your team provide a detailed background about the initiative itself, in its current state, and to think what could be possible if the current initiative had more financial and other resources in its current location; and, most important, how your team could recommend replicating/scaling the initiative and what has to happen. We hope you'll reach out to the stakeholders and work with them to answer these questions. The more comprehensive your answers, the more believable your answers will be, and the more credible your Case Study becomes.
- 3) Building the Story: In Parts II, III, IV and the bonus section, there are no wrong answers. Your Case Study should "Make the Case" why and how your initiative should be replicated and scaled. The more compelling your story, the greater the possibility that there will be interest by other stakeholders in India to replicate the initiative and reach out to CAPP.Global to see how they can get involved to do so.
- 4) CAPP.Global may showcase all winning Case Studies on both its web site (CAPP.Global) and the CAPPIndia.in web site. At the appropriate time, we will require written permission from the stakeholder your team is writing about.
